QUALIFICATIONS

Working my way through college, I began in the legal field as a file clerk for a local law firm. After graduating with honors with a Bachelor's Degree in Business Administration, I worked for a CPA firm handling the bookkeeping for several family trusts. I began my career with Economic Consulting in 2005, providing economic analysis in over 1,000 cases in the past thirteen years under the tutelage of economist Stephen Horner, PhD. Although most of my experience has been in cases involving allegations of personal injury or wrongful death, I have also prepared analysis of economic loss in discrimination and wrongful termination cases, medical malpractice, breach of contract, tortious interference, theft of trade secrets, and similar commercial litigation. I completed a Master's Degree in Business Administration in 2007.
